**Preferred citation:** [Identification of item]. Ethel Austin Martin Program in Human Nutrition records, Ethel Austin Martin Distinguished Lecturer in Human Nutrition records, UA 24.2, South Dakota State University Archives, South Dakota State University, Brookings, S.D.

**Processing information:** Ethel Austin Martin kept copious records of her involvement with the establishment of and ongoing management of the Ethel Austin Martin Program in Human Nutrition at South Dakota State University, and much of that material is found throughout this collection.

While much of the material in this collection was created by Ethel Austin Martin, also included were files of the Endowed Chair of the program. The processor tried to separate the Ethel Austin Martin material from the Endowed Chair material while maintaining original order, but because of Martin's deep involvement with this program it is suggested that researchers search all aspects of this collection while conducting research on Ethel Austin Martin or the Ethel Austin Martin Program in Human Nutrition.

This collection was processed by Crystal J. Gamradt on January 8, 2009.

## BACKGROUND NOTE

Dr. Ethel Austin Martin, 1916 alumna of South Dakota State University, established an endowment fund to promote multidisciplinary scholarship and education in the field of human nutrition. This fund provides for a series of Distinguished Lectureships in Human Nutrition.

The Distinguished lecturers in Human Nutrition are on the South Dakota State University campus for a two-day period. They give a major presentation open to the general public, followed by exploratory discussions of the functions of the program in different educational areas of the University.

## SCOPE AND CONTENTS NOTE

This collection is composed of files related to the planning and development of the Ethel Austin Martin Distinguished Lecturer in Human Nutrition. Included are files on program planning and development, publicity, programs and announcements, audio recordings of some lectures and material related to the selection of lecturers.

Folders consist of correspondence, clippings, photographs, and speech files, including research. Ethel Austin Martin was very involved in the planning of the lectureships. Researchers will find many letters, notes, and related material created by Martin in these files.
